

Crystal Lake Lions Club-Serving In Its **88th** Year

Pride

March, 2020

New Members Added

Two new members were added to the Crystal Lake Lions Club at the February Board Meeting on February 10. On the left, new Lion Kevin Byrnes has his Lions pin attached by Lion First Vice President Anita Wingfield. (Lion Kevin's sponsor is Lion John Landon, Lion Anita stepped in as Lion John was otherwise occupied). New Lion Dave Notter, right, is shown with his sponsor, Lion Dave Moore. Lion Kevin lives in Crystal Lake at 145 West Crystal Lake Avenue. Lion Dave lives in Lake in the Hills at 626 Loree Lane. Phones and emails are available on the website.

Sight and Sound Sweepstakes is once again underway. Lion Meghan Davies is in charge and has books available for all Lions at every meeting. Sell chances to all your friends, neighbors and business contacts. Lots of prizes are available and will be drawn and

awarded at the State Convention in mid-May.

Completed ticket books must be turned in by the April Program Meeting on April 27.

Crystal Lake has had many winners in this yearly sweepstakes including one top prize of \$5,000 awarded several years ago. The Club member, or the Club, receives 10% of any winning ticket if you remember to fill out the back of the ticket stub.

Upcoming Events - Mark Your Calendars

Monday, March 9	Board Meeting	Cottage 6:30
Monday, March 23	Program Meeting	Village Squire 6:30

President's Letter

Hi, Fellow Lions,

I would first like to start off with thanking everyone who helped with this years Steak Fry. It was definitely a huge success, we brought in \$37,285 dollars. (we still have money coming in) Way to go everyone!

I would like to give a special thanks to Lion Randy Funk, Lion Rob Parrish, Lion Brennan Markee and Lion Dave Moore. You guys really did a big part that night to help make it our most successful Steak Fry yet!

Now onto the Annual Sight and Sound Sweepstakes! If you haven't picked up any books yet please see Lion Meghan Davies at our next meeting. Our goal is to sell all the books that we got this year, if you can only buy or sell a few that is definitely okay!

Lastly, I would like to welcome our two newest members Lion Kevin Byrnes and Lion Dave Notter. I look forward to working with both of you at our upcoming club events.

Lion Bill Davies

Lions Global Causes

Lions are known for serving the blind and sight impaired. And the deaf and hearing impaired. We serve the diabetic since diabetes is a major cause of blindness. Many Lions, however, are unaware that we also serve the causes of childhood cancer, hunger and the environment.

HUNGER

We serve to improve human flourishing. We see how the global hunger and nutrition crisis bears upon our local communities, and believe true community improvement depends on the thriving of its members.

- **815 million** people affected by hunger in 2016: 11% of the global population
- **155 million** children under age five are stunted due to chronic malnutrition
- **1/3** of annual food production is lost or wasted throughout the supply chain
- **33%** of women of reproductive age suffer from anemia

CHILDHOOD CANCER

The next generation's ability to thrive is closely tied to the supports of the local community. Lions and Leos have seen and felt the effects of cancer on children and their families, and continue to bring hope through tangible service and support

- **2 minutes** a child is diagnosed with cancer every two minutes
- **13%** increase in incidence of childhood cancer over the last 20 years
- **6 years** average age at diagnosis of children with cancer
- **90%** of childhood cancer deaths occur in low resource settings

ENVIRONMENT

The earth sustains human life. We've seen how our stewardship of natural resources can improve quality of life and increase engagement in our local communities. Our environment is more than a background: it's our home. And we're committed to caring for it.

- **>3 trillion** trees in the world
- **30%** of the world's land area is covered by forest
- **>15 billion** trees are cut down every year
- **46%** Estimated global decrease in tree count since the start of human civilization
